

Heart & Stroke Webinar Series

Interprofessional Distance Learning Opportunity | Usask

Target Audience: Family/Specialist Physicians and all other Health Care Professionals

Wednesdays | 4:00 - 5:00 PM (Saskatchewan time zone)

Zoom links will be emailed to all paid registrants one week in advance.

Session, Speaker, Session Learning Objective

February 2 | Dr. Stephen Pylypchuk

Initial approach, workup and starting therapy

- Develop an approach to the patient presenting with new heart failure from initial work up to starting guideline directed medical therapy.

February 9 | Dr. Shane Wunder

Common post-stroke complications, how to assess and how to initiate treatment in the community

- Identify, initiate treatment, and determine when to refer for the following: post-stroke fatigue, depression or CRPS aka “shoulder-hand syndrome”, as well as spasticity and central and hemiplegic shoulder pain.

February 16 | Dr. Ben Leis

Chronic Management of Coronary Artery Disease

- Describe the advantages of medical therapy over interventional therapy in stable CAD and outline an approach to the management of a patient with stable CAD.

February 23 | Dr. Brett Graham & Dr. Regan Cooley

Updates in Secondary Stroke

- Apply current lipid management guidelines to their own practice and appropriately use dual antiplatelet therapy in secondary stroke prevention after high-risk TIA and minor stroke.
