

Whoava Agenda for SEMAC IX 2017

*Date	*Time Start	*Session Title	Description	Speakers
10/13/2017	07:30 AM	Continental Breakfast & Registration		
10/13/2017	08:15 AM	Opening Remarks		Dr. James Stempien
10/13/2017	08:30 AM	Plenary #1 - Going Online to Meet Your CME Needs	Participants will be able to: Using social media to meet your core CME needs	Dr. Ken Milne
10/13/2017	09:15 AM	Plenary #2 - Four Conversations You Need to Have in Medicine Right Now!	Participants will be able to: Identify four conversations that are critical to medical practise Demonstrate an ability to provide objective feedback Demonstrate an ability to navigate interpersonal conflict Explain the GROW model for a coaching conversation Identify and mitigate dysfunctional self-talk and be able to lead yourself	Dr. Nadim Lalani
10/13/2017	10:00 AM	Refreshment Break/Exhibits		
10/13/2017	10:15 AM	Concurrent #1 - Four Conversations You Need to Have in Medicine Right Now!	Participants will be able to: Participate in a small group interactive session	Dr. Nadim Lalani
10/13/2017	10:15 AM	Concurrent #2 - Anemia: A Disease to Which Transfusion is Rarely the Answer	Participants will be able to: Recognize anemia and transfusion independently contribute to morbidity and mortality Develop a strategy to reduce unnecessary transfusion Recognize and treat iron deficiency and anemia early	Dr. Ryan Lett
10/13/2017	10:15 AM	Concurrent #4 - STARS Mobile Education Unit	Participants will be able to: To provide learners with an opportunity to manage a critically ill or injured patient in a simulated setting	Matthew Hogan; Jacob Kyrejto
10/13/2017	11:00 AM	Relocation Break		
10/13/2017	11:05 AM	Concurrent #1 Repeated - Four Conversations You Need to Have in Medicine Right Now!	Participants will be able to: Participate in a small group interactive session	Dr. Nadim Lalani
10/13/2017	11:05 AM	Concurrent #2 Repeated - Anemia: A Problem to which Transfusion is Rarely the Answer	Participants will be able to: Recognize anemia and transfusion independently contribute to morbidity and mortality Develop a strategy to reduce unnecessary transfusion Recognize and treat iron deficiency and iron deficiency anemia early	Dr. Ryan Lett
10/13/2017	11:05 AM	Concurrent #3 Repeated - Social Media 101		Dr. Ken Milne
10/13/2017	11:05 AM	Concurrent #4 Repeated - STARS Mobile Education Unit	Participants will be able to: To provide learners with an opportunity to manage a critically ill or injured patient in a simulated setting	Matthew Hogan; Jacob Kyrejto
10/13/2017	11:50 AM	Lunch		
10/13/2017	11:50 AM	Lunch - SaskDocs presents Emergency Medicine as a Career Pathway		
10/13/2017	12:45 PM	Plenary #3 - POCUS in Saskatchewan: Small Town, Big Town & In-Between	Participants will be able to: Appreciate that Ultrasound is now the Standard of Care when dealing with a hypotensive patient	Rene Chapman; Dr. Dalynne Peters; Dr. Mark Taylor
10/13/2017	01:30 PM	Relocation Break		

10/13/2017 01:35 PM	Concurrent #5 - What's New in Sepsis?	Participants will be able to: New definition of sepsis Timing of antibiotics and source control EGDT in 2017? Fluids - type and amount Resuscitation endpoints Vasopressors and target BP Adjunctive therapies	Dr. Luke Terrett
10/13/2017 01:35 PM	Concurrent #6 - Thoracostomy	Participants will be able to: Outline the indications for thoracostomy Describe the procedure for thoracostomy Discuss the controversy around needle decompression and finger thoracostomy Practice thoracostomy on simulated models	Dr. Sachin Trivedi; Dr. Clint Houlie
10/13/2017 01:35 PM	Concurrent #7 - Toxicology - it's all clinical...except for an ECG & a few blood tests	Participants will be able to: Recognize the most common toxidromes on clinical grounds Describe the utility of a urine toxicology screen Calculate an osmolar gap to screen for toxic alcohols	Dr. Rob Woods
10/13/2017 01:35 PM	Concurrent #8 - Common Emergency X-Rays & Pitfalls	Participants will be able to: Review of x-rays commonly seen in emergency departments How to read x-rays and avoid errors	Dr. Ivan Norval; Dr. Chris Rusnak
10/13/2017 01:35 PM	Concurrent #9 - STARS Mobile Education Unit	Participants will be able to: To provide learners with an opportunity to manage a critically ill or injured patient in a simulated setting	Matthew Hogan; Jacob Kyrejto
10/13/2017 02:20 PM	Refreshment Break/Exhibits		
10/13/2017 02:35 PM	Concurrent #7 Repeated - Toxicology - it's all clinical...except for an ECG & a few blood tests	Participants will be able to: Recognize the most common toxidromes on clinical grounds Describe the utility of a urine toxicology screen Calculate an osmolar gap to screen for toxic alcohols	Dr. Rob Woods
10/13/2017 02:35 PM	Concurrent #8 Repeated - Common Emergency X-Rays & Pitfalls	Participants will be able to: Review of x-rays commonly seen in emergency departments How to read x-rays and avoid errors	Dr. Ivan Norval; Dr. Chris Rusnak
10/13/2017 02:35 PM	Concurrent #9 Repeated - STARS Mobile Education Unit	Participants will be able to: To provide learners with an opportunity to manage a critically ill or injured patient in a simulated setting	Matthew Hogan; Jacob Kyrejto
10/13/2017 03:20 PM	Relocation Break		
10/13/2017 03:25 PM	Plenary #4 - Breaking Bad...Methamphetamine Toxicity in the ED	Participants will be able to: Recognize the presentation of acute methamphetamine toxicity List the differential diagnosis for agitated delirium Implement diagnostic tests and treatments for these patients	Dr. Rob Woods
10/14/2017 07:30 AM	Continental Breakfast & Registration		
10/14/2017 08:00 AM	Opening Remarks		Dr. James Stempien
10/14/2017 08:15 AM	ER Waits & Initiatives		Dr. James Stempien

10/14/2017 08:30 AM	Plenary #5 - Indigenous Health & Well-Being: Historical, Present & Future Challenges for Indigenous & Non-Indigenous Peoples	Participants will be able to: Verbalize their challenges when interacting with Indigenous peoples in the clinical setting Verbalize the historical and ongoing impact of colonization on Indigenous health and well-being Describe the cultural paradigm clashes and impact on ER practice Integrate Truth and Reconciliation (TRC): Calls to Action into practice	Holly Graham
10/14/2017 09:15 AM	Plenary #6 - Update on TREKK (Translating Emergency Knowledge for Kids)	Participants will be able to: Review current and new recommendations coming from the TREKK team on pediatric emergency care	Dr. Shannon MacPhee
10/14/2017 10:00 AM	Refreshment Break/Exhibits		
10/14/2017 10:15 AM	Concurrent #10 - Can't Miss ECG's	Participants will be able to: Identify key ECG abnormalities in patients with common complaints Understand why the ECGs look the way they do Discuss management based on the clinical presentation	Dr. Nick Bouchard
10/14/2017 10:15 AM	Concurrent #11 - Suicide: A Preventable Epidemic	Participants will be able to: Discuss suicide rates in Saskatchewan and Canada Discuss individual and community risks for suicide Discuss an ER approach to a potentially suicidal patient	Dr. Sara Dungavell
10/14/2017 11:00 AM	Relocation Break		
10/14/2017 11:05 AM	Concurrent #12 - TREKK (Translating Emergency Knowledge for Kids) Update	Participants will be able to: Updates on current recommendations on emergency care Participants will be able to: Identify appropriate decision rules NEXUS vs Canadian rules	Dr. Shannon MacPhee
10/14/2017 11:05 AM	Concurrent #13 - Clearing the C Spine	Identify who needs C-spine imaging Identify an approach to C-spine X-rays Synthesize the information through case presentations	Dr. Stuart Netherton
