

Office of the Registrar

Susan Furman-Pelzer started her advanced career after graduating with her Masters in Nursing in Advanced Nursing Practice with honors from Athabasca University in 2010. She worked at Four Directions Community Clinic in North Central Regina and dedicated 9 years as a PHC NP. There she evolved and experienced a rich knowledge base from caring for her patients and working with esteemed specialist colleagues. She continues to practice on a casual basis but 2 ½ years ago she moved on to more of a regulatory position with the College of Registered Nurses of Saskatchewan (CRNS) and fulfils the role of the Prescription Review Program NP Advisor. Susan's area of interest from her previous experiences are substance use disorders, risk mitigation and therapeutic options for the optimal treatment of adult and youth with varying presentations of OUD.
