

The Neonatal Resuscitation Program Workshop for Providers

Come and learn about approaches to neonatal resuscitation in this interactive
1-day workshop for new and renewing NRP Providers

NRP Provider Workshop June 16, 2022 | Regina General Hospital, Regina, SK

The Neonatal Resuscitation Program (NRP) provides health care professionals with the knowledge and skills of neonatal resuscitation. Participants must complete an on-line exam prior to the in-person component that focuses on the application of knowledge to clinical practice through skills checks, integrated skills practice and case based learning. The use of simulation and debriefing are prominent in building a team-based approach to care.

Who can take NRP?

Anyone who is required to participate in any part of neonatal resuscitation within their scope of practice may take an NRP course. The individual should be a licensed or regulated health professional (or student) such as physician, nurse, midwife, respiratory therapist or paramedic.

REGISTRATION - ONLINE

Registration link click [here](#)

For more course information and details, contact:

Suzanne Staudinger

E-mail: suzanne.staudinger@saskhealthauthority.ca

WORKSHOP FEE

SHA Staff/Physicians \$75.00; Partner Organizations/Residents \$200.00

Participants are responsible for obtaining the 8th edition NRP Provider Manual. Participants are required to successfully complete the NRP On-line exam as a pre-requisite to attending the course. Further details about the Manual and Online Exam will be included in the confirmation letter provided by your local contact.
